

Sea Foam[®]

Protect your engines from Ethanol fuel

100% pure petroleum. No harsh chemicals.

Did you know Ethanol-blended fuels absorb moisture and over time can cause engine damage?

Use Sea Foam Motor Treatment to protect engine components from the harmful effects of E-5, E-10, E-15 and E-85 blended fuels

- ✿ Helps prevent corrosion and decay of metal and rubber parts
- ✿ Lubricates upper cylinders and fuel injectors
- ✿ Removes deposits from combustion of Ethanol-blended fuels
- ✿ Stabilizes Ethanol-blended fuels for up to two years
- ✿ Controls moisture and helps prevent phase separation of Ethanol-blended fuels
